General

Request Handling

The screenshot shows the 'Certificate Templates Console' window. The 'User Properties' dialog box is open, displaying the 'Subject Name' tab. The 'Source of subject name' section has 'Built from information in Active Directory' selected, and the 'Include e-mail name' checkbox is checked. The 'Type of subject' section has 'User' selected. The background shows a list of certificate templates, including 'User Signature Only', 'Web Server', and 'Workstation Authentication'.
